**NEWS RELEASE**

**Weatherford Brings Its Oilfield Technology To The 2019 Kuwait Oil & Gas Show; Will Provide Industry Voice On “Developing Capabilities for the New Energy Economy”**

**HOUSTON, October 14, 2019** -- Weatherford International plc (OTC-PINK:WFTIQ) announced it will showcase its best-in-market oilfield technologies for directional drilling, managed pressure drilling (MPD), single-trip completions, production optimization and automated connection integrity at the 2019 Kuwait Oil & Gas Show and Conference to be held October 13 to 16, 2019 at the Kuwait International Fair (KIF) in Mishref.

On Wednesday, October 16<sup>th</sup> from 10:45 a.m. to 12:15 p.m., Weatherford will present on “Developing Capabilities for the New Energy Economy.” The program will look at the current state of oilfield service operations and make a compelling case for why the future of the industry depends on embracing automation and digital transformation.

During the show in Weatherford booth 6232, guests can see physical models of the industry-leading rotary steerable system, Magnus, and the industry’s most disruptive tubular-running technology, Vero automated connection integrity. In-booth presentations will be ongoing for the company’s marquee drilling, well construction, completions and production technologies, including:

- **Vero® automated connection integrity** replaces human judgment with artificial intelligence,
- **TRIP™ single-trip completion system** sets a new precedent in deepwater completions,
- **ForeSite® production optimization platform** brings Production 4.0 capabilities to the oil field,
- **Magnus® rotary steerable system** delivers high-performance, precise directional control, and
- **Victus™ intelligent MPD** achieves unmatched safety and cost savings through an end-to-end MPD solution.
