MetalSkin[®] Openhole Expandable Systems

Optimizing reservoir development with a solid expandable openhole liner system to enhance drilling efficiency and increase production capacity

5-1/2 x 7 in.

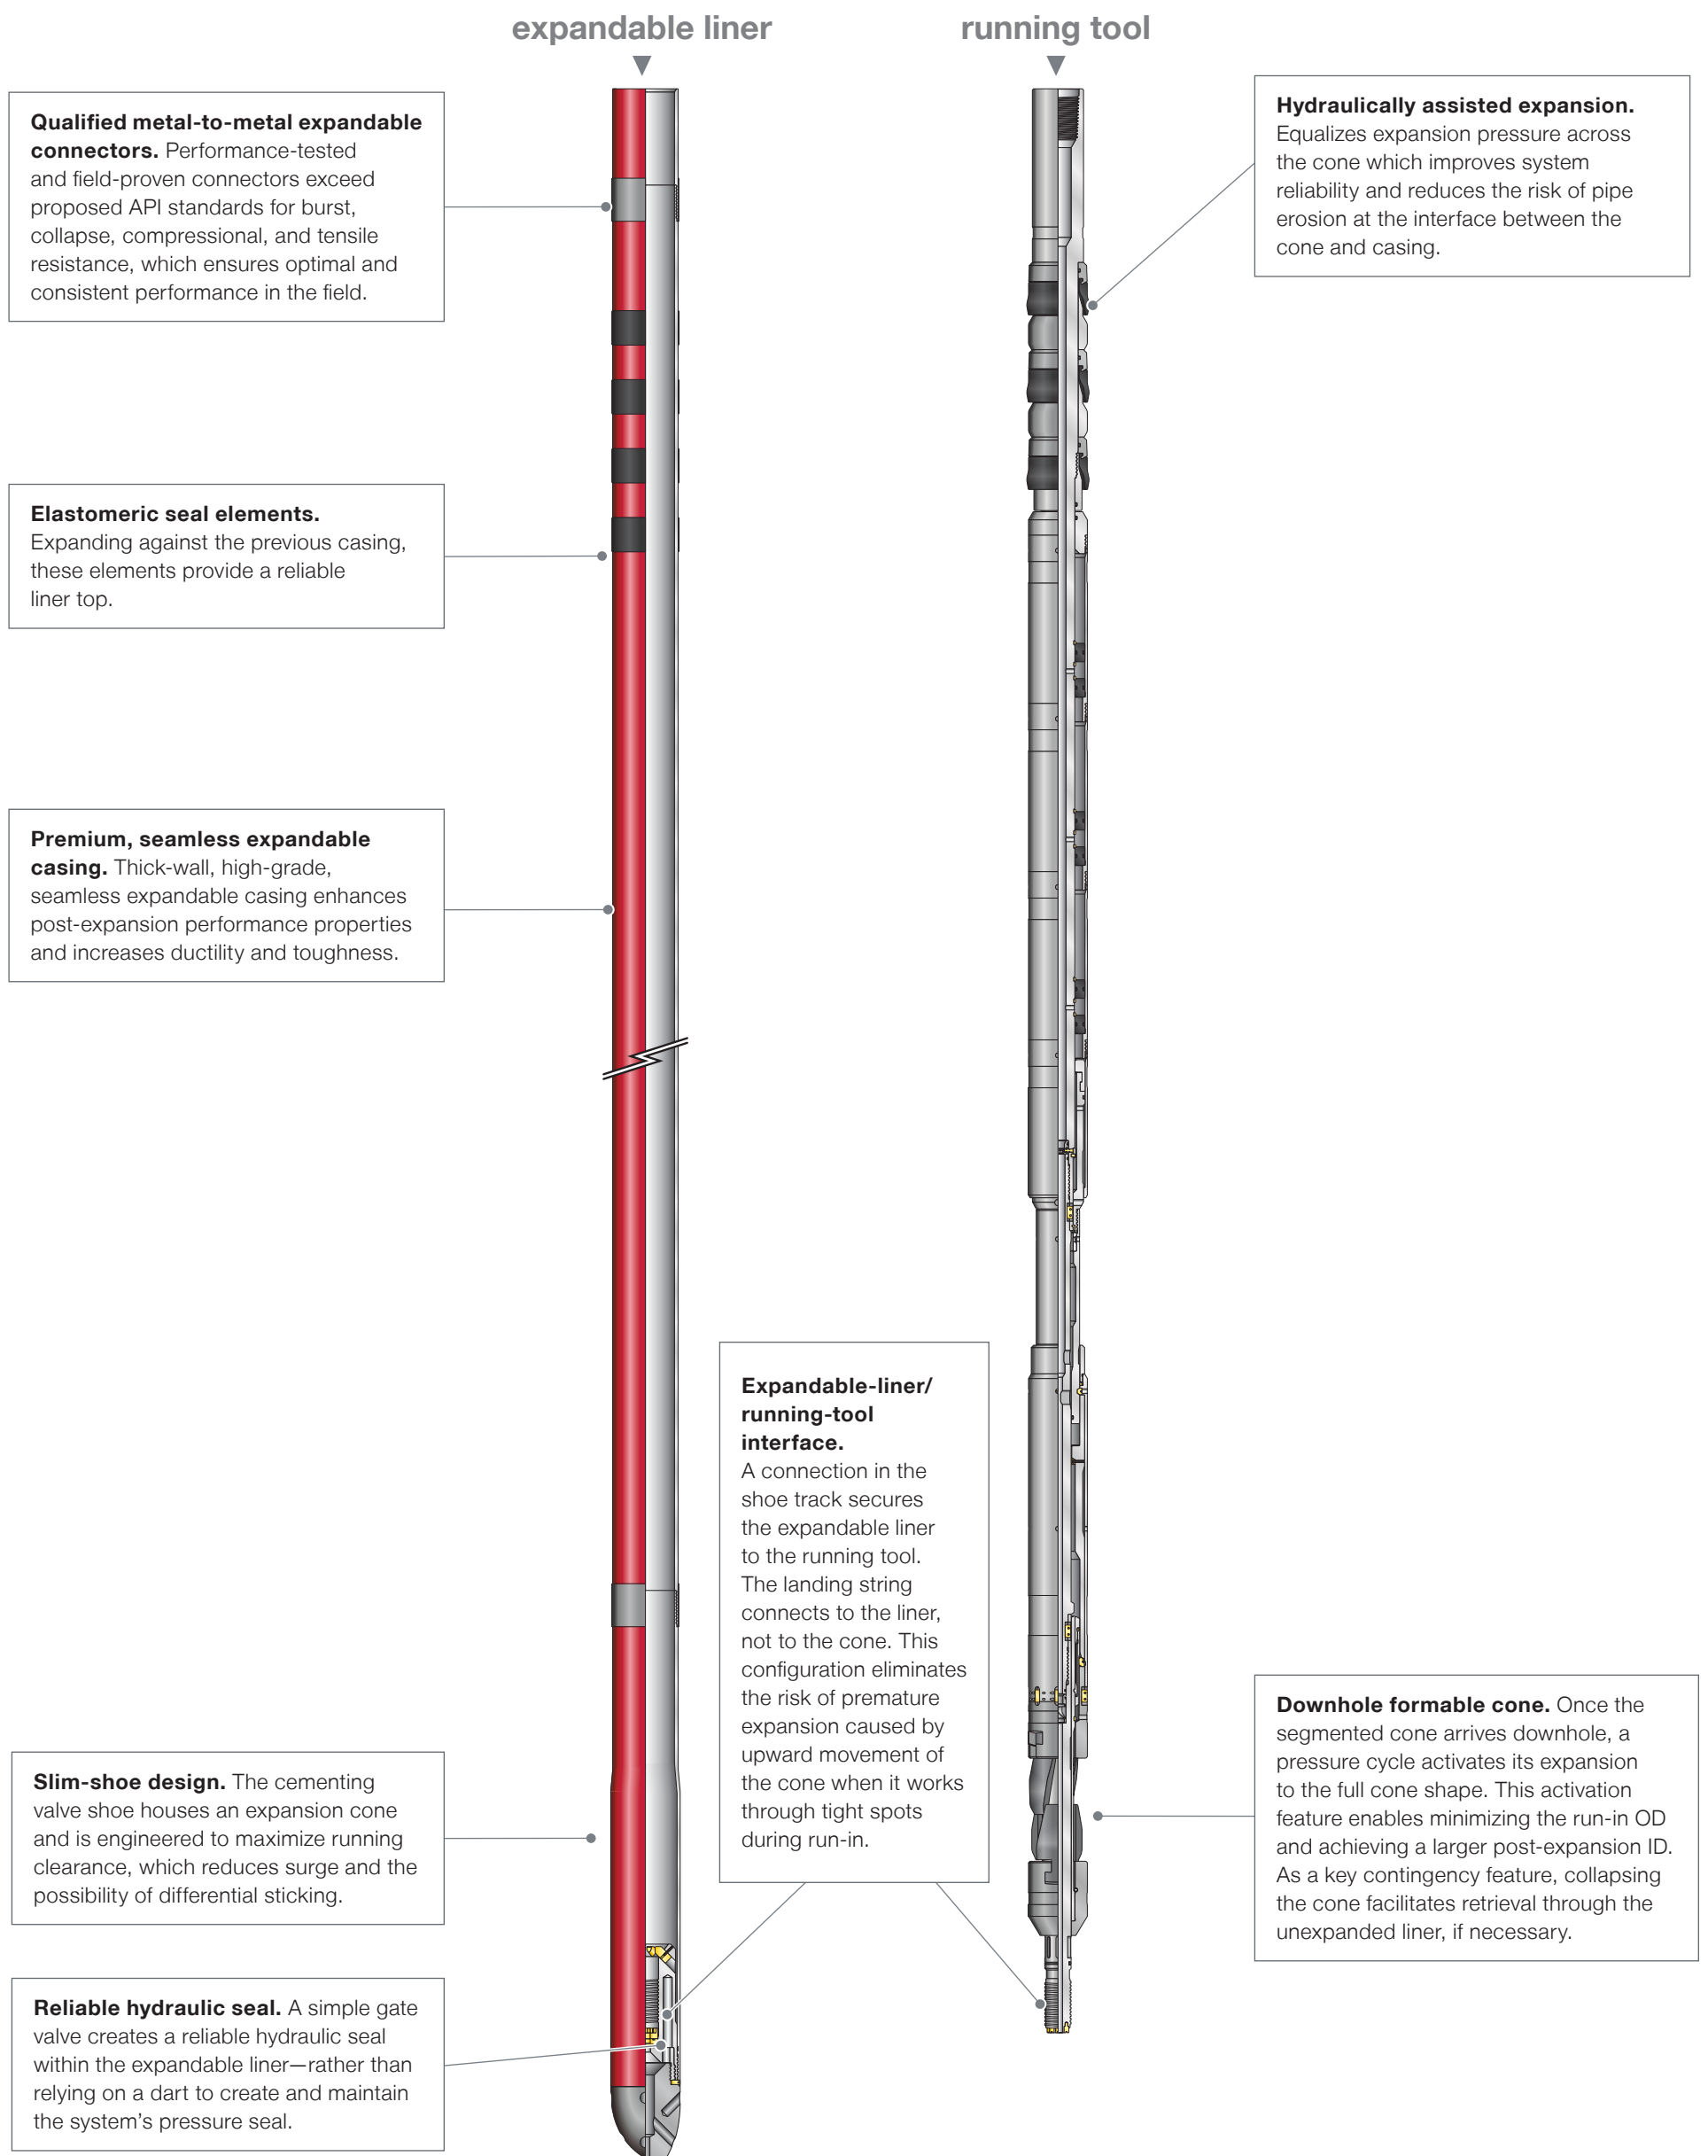

The Solid Choice.

MetalSkin® Openhole Solid Expandable Systems

Solid performance advantages

As a leader in solid expandable technology, Weatherford draws on extensive experience to develop the most advanced openhole liner system on the market. The MetalSkin system incorporates several innovative design features to enhance installation reliability and long-term downhole performance.

MetalSkin® Openhole Solid Expandable Systems

Expanding reliability

Drill and underream hole section.

Run in hole with expandable liner and setting tool.

Drop ball and pressure up to form cone.

Pump cement, release setting tool, and pressure up to expand liner.

Cone exits top of liner using rig overpull.

Drill out shoe and drill ahead.
