

# Dummy Logging Cable/Line Simulator

Allows logging tools to be tested on 3 different simulated line lengths

## Applications

- Testing tools in the lab without the need for a wireline

## Features and Benefits

- Simulate expected logging cable electrical properties to ensure logging tool operates and communicates reliably with the surface system

## Tool Description

The Weatherford dummy logging cable/line allows logging tools to be tested on 3 different simulated line lengths with 90  $\Omega$ , 160  $\Omega$ , and 220  $\Omega$  representing short, medium, and long mono conductor cable lengths.

## Specifications

Length	10 in.
Width	5.0 in.
Height	1.5 in.
Connection type	BNC
